

At Empire Vein Specialists (EVS), we strive to provide high-quality care to all of our patients. To help us maintain the highest standards of care, we have established the following policy regarding new patients.

A patient will be considered a "new patient" if they have not received medical care from EVS within the past 12 months. This includes any medical services provided by all healthcare providers within our group practice.

Patients who are considered "new" will be required to complete a new patient registration form and provide updated health information, including their medical history, medications, and allergies. We may also request copies of any relevant medical records from previous healthcare providers.

We believe that this policy will help us provide the best possible care to our patients by ensuring that we have up-to-date information about their health and medical history. If you have any questions about our new patient policy, please do not hesitate to contact our office.

Thank you for choosing EVS for your healthcare needs.
